

## CADREX EV 1000

Vanishing Neat oil

### DESCRIPTION

**CADREX EV 1000** is an odorless chlorine and sulfur free vanishing fluid, which is specifically designed for the forming and blanking of sheets of ferrous and non-ferrous metals: steel, stainless steel, light and copper alloys.

### RECOMMENDED APPLICATIONS

**CADREX EV 1000** is suitable for:

- Blanking and stamping fins and plates for heat exchangers
- Expansion of tubes
- Profiling on roller machines
- High speed cutting of rotor stators and electrical components
- Stamping of metallic packaging
- Stamping and blanking of components for household appliances and perfumery.

### ADVANTAGES

- Odorless
- Ready to use
- Fast evaporation
- Thermodegradable dry extract
- Application: low pressure spraying, roller, impregnation by dipping
- Compatible with non-ferrous metals

**CADREX EV 1000** contains volatile and flammable solvents. It is necessary to refer to the MSDS for correct usage.

### TECHNICAL INFORMATION

CHARACTERISTICS	METHOD	UNIT	CADREX EV 1000
Aspect			Colourless
Density at 20°C	ISO 12185		0.760
Viscosity at 40°C	ASTM D 445	mm <sup>2</sup> /s	< 7
Flash point	ASTM D 92	°C	65
Copper stripe corrosion	NFT M 07105		1a
Dry content	NFT 30 084	%	0

The specifications are given for information purposes only and may need to change.

### PROPERTIES

- Ready to use
- Contains an extreme-pressure, chlorine-free additive
- Compatible with non-ferrous metals
- Versatile
