

## INTENSE CLEANER

### Heavy-Duty Cleaning Gel

#### DESCRIPTION

**INTENSE CLEANER** is a jellied cleaner for paints and resins.

**INTENSE CLEANER** has been tested on all paints and by resins, varnishes and inks. Its formula has been developed to be effective on coatings with physical drying at ambient temperature, but also on bi-component, thermosetting or UV polymerised systems.

**INTENSE CLEANER** is suitable for Glycerophthalics, Cellulosics, Acrylics, Vinyls, Aminoplasts, Polyesters, Phenolic, Mono and Bi-Component Epoxy, Mono and Bi-Component Polyurethanes.

#### RECOMMENDED APPLICATIONS

Cleaning of molds in plastic injection. Cleaning of mold cavities and removal of various materials and traces of oxidation. Cleaning of molds, ejector guides in the plastic injection industry.

Removing of temporary workshop markings. Removal of paints and inks.

#### ADVANTAGES

- Without chlorinated solvents.
- Very fast cleaning time.
- Works perfectly even on vertical surfaces.

#### TECHNICAL INFORMATION

| CHARACTERISTICS                          | Standards        | INTENSE CLEANER | UNIT              |
|--|------------------|-----------------|-------------------|
| Physical state*                          | Visual           | Liquid          |                   |
| Aspect*                                  | Visual           | Opaque          |                   |
| Color*                                   | Visual           | Blue            |                   |
| Smell*                                   | Olfactory        | Solvent type    |                   |
| Apparent density at pycnometer at 25 °C* | NF EN ISO 2811-1 | 900             | kg/m <sup>3</sup> |
| Nature of gelling agent                  |                  | Organic         |                   |
| Self-igniting point*                     | ASTM E 659       | 230             | °C                |
| Flash point closed cup                   | NF EN 22719      | 43              | °C                |

## PROPERTIES

**INTENSE CLEANER** has a much better coverage than most conventional cleaners, thanks to its wetting power, optimized evaporation rate and ease of application.

**INTENSE CLEANER** allows a reduction of the quantities used, up to 30% lower than those of the usual formulas.

**INTENSE CLEANER** does not contain Methylene Chloride, N-Methyl-2-Pyrrolidone, Ketone and other chlorinated solvent, or Glycol Ether.

**INTENSE CLEANER** therefore complies with Regulation (EU) No 276/2010 of 31 March 2010 on the marketing of strippers containing Methylene Chloride.

**INTENSE CLEANER** is a gelled fluid for increased action time on vertical surfaces. Its aerosol packaging allows easy and precise application, even in the most difficult places of access.
