

SAFCONET LIQUID®

Ready to use cleaning solution for use in biological parts washer

DESCRIPTION

SAFCONET LIQUID® is an aqueous solution designed for industrial cleaning use, composed of specific surface-active agents.

INSTRUCTIONS FOR USE

SAFCONET LIQUID® is used directly, without dilution.

To implement the regeneration phenomenon, add 1 **SAFCONET TABS®** when installing your fountain. Then, depending on frequency of use, add one tab every 4 to 6 weeks.

Caution: the product has specific corrosion inhibitors for temporary protection between operations and we recommend performing tests in order to validate the correct protocol to use. It is however not long lasting protection for which we recommend to apply a special protective film.

ADVANTAGES

- Solvent free.
- No phosphate.
- No preservative.
- No labelling.
- Biodegradable surfactants.

TECHNICAL INFORMATION

TECHNICAL CHARACTERISTICS	UNITS	SAFCONET LIQUID®
Aspect & Color	-	Clear pale blue
Temperature of use	°C	20-45
Temperature of use with SAFCONET Tab®	°C	38
pH	-	9-9.7
Specific Gravity	-	1.00-1.01

These characteristics are given for information and can be modified over the time.

HEALTH & SAFETY

- Free from phosphate, solvent and preservative
- No labelling
- Store in a frost-free place away from light.

SERVICES AND EQUIPMENT

In addition to its product ranges, MotulTech can provide tools and services for the maintenance and in-use monitoring of your lubricants.
